BASIC ORAL CARE

Many of our beloved Veterans do not have dental benefits and therefore forgo basic care due to cost. We are going to provide basic oral care at our pop-up clinic to provide this much needed service to those who have selflessly served us!

CARE 2 U

When oral disease is present, serious medical concerns such as cardiac disease, stroke, diabetes, and many other medical conditions can worsen. HELP US help prevent this decline of quality of life for our veterans.

WE NEED YOU

Without your support, we are unable to deliver care to those in our community that need our services. 100% of donations for this event will go directly to the purchase of equipment that allows us to continue these community events to our veterans.
